

BEESWAX BIRTHDAY CANDLES

Make your own 100% Pure Beeswax birthday candles! Choose from 33 colours of our [smooth beeswax sheets](#).

1 smooth beeswax sheet will make 48 birthday candles 2 1/8" tall x 3/8" diameter. These candles should burn for 15-20 minutes each.

Supplies needed:

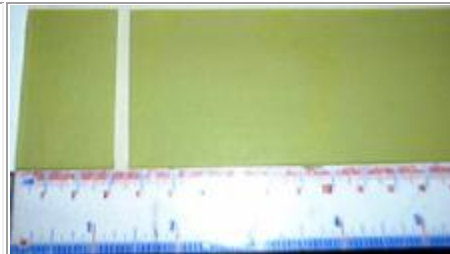

- [Smooth Beeswax Sheets](#) (1 sheet makes 48 candles)
- [#5/0 cotton wick](#) (one 5 metre package will make about 80 candles)
- ruler (metal are best)
- exacto or craft knife

Instructions:

1) Cut one smooth beeswax sheet into 4 equal pieces, each measuring about 2 1/8" wide x 16" long

2) now cut each strip into pieces 1 1/4" wide - you'll get 12 from one strip

3) it helps to fold the edge on a ruler before beginning to roll the candle
- make sure it's the longer edge so the candle is 2 1/8" tall

4) cut a piece of #5/0 wick 2.5" long and lay it along the folded up edge, leaving the extra out one end, then fold the edge of the wax over the wick

5) roll the wax firmly between your thumbs and fingers;
press the seam firmly when finished to seal it

6) the wick should be about 1/4" long, trim if necessary before lighting
